# Nature Explorer Challenge

This checklist is part of the Chaotic Green Spirit Nature Explorer Challenge, created to help children notice and enjoy the wildlife living all around us.

Take the checklist on walks, in parks, woodland or even in your garden, and see how many plants, animals and insects you can spot. You don't have to complete it all in one day, many explorers finish their list over several adventures.

## Become a Nature Explorer

When your checklist is complete, ask a grown-up to take a photo of it and upload it on the challenge page using the QR code below.

Children who complete the challenge will earn their Chaotic Green Spirit Nature Explorer Certificate! and some explorers may be featured in our Nature Explorers Gallery on the website.
